Area Rotary Clubs and Foundation for Springfield Public Schools receive top honors on National Philanthropy Day

SPRINGFIELD (Nov. 23, 2009)—The five Springfield Rotary Clubs and the Rotary Club of Nixa received the *Outstanding Philanthropic Service Project of the Year* award at the 2009 National Philanthropy Day award ceremony hosted by the Association of Fundraising Professionals (AFP)—Ozarks Region Chapter on Friday. The Foundation for Springfield Public Schools was named the *Outstanding Foundation of the Year*. Both organizations were nominated by Ozarks Food Harvest.

“It’s not surprising that these two honorees not only support The Food Bank, but also several of our fellow nonprofits in the community,” said Bart Brown, president/CEO at Ozarks Food Harvest. “We are grateful for their outstanding philanthropic efforts.”

Accepting AFP’s inaugural *Outstanding Philanthropic Service Project of the Year* award on behalf of all area Rotary Clubs was Tamara de Wild, president of Rotary Club of Springfield—Downtown and secretary of Ozarks Food Harvest’s board of directors. The clubs were honored for the Mobile Food Pantry™ program service project for Ozarks Food Harvest. Last summer, the clubs unveiled the second vehicle donation to the program in less than three years. The Food Bank’s Mobile Food Pantry™ makes it possible to distribute food directly to individuals without the need for a building, and the second truck is insulated, allowing the distribution of fresh produce and other limited shelf life items. This also allows Ozarks Food Harvest to distribute product more efficiently, according to Brown.

The Foundation for Springfield Public Schools has partnered with Ozarks Food Harvest to provide financial support to The Food Bank’s Weekend Backpack Program™ in Springfield. Through the Foundation’s efforts, nearly 500 students that participate in the program receive backpacks full of healthy, ready-to-eat foods over the weekends during the school year. As this partnership continues to grow, more students in need at more elementary schools will be able to access this life-saving program.
